

A Whole Brain® Diagnostic

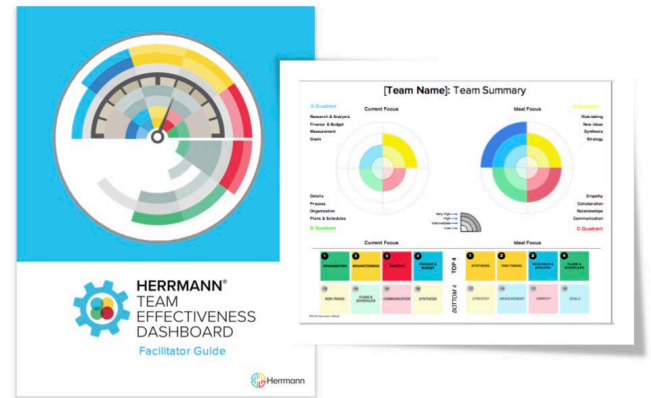

PROVIDES THE TEAM IMMEDIATE, ACTIONABLE
INSIGHTS ON CURRENT INITIATIVES

Herrmann® Team Effectiveness Dashboard

Solving the team performance challenge

The Whole Brain® Team Dashboard helps teams evaluate where their focus and energy goes versus where it should be going - all while building their Whole Brain 'muscles'.

- 10-minute, 37-question diagnostic administered by an HBDI® Certified Practitioner on the Herrmann platform.
- 11 page report provides analysis of the team's focus in each of four Whole Brain® areas that contribute to team effectiveness.
- Encourages team members to consider the team's strengths and biggest challenges to increase the team's effectiveness.
- Workshop facilitated by the Practitioner allows for discussion of results and team insights and action plan development.
- Can be used like a 360 assessment throughout the team building process to uncover and compare shifts in team focus and performance over time.
- Builds off of the HBDI® Team Profile and provides additional reinforcement and application of Whole Brain Thinking (does not replace the HBDI® Team Profile).

Perfect for different kinds of teams:

- Recently formed teams (at least 2 months)
- Cross-departmental project teams
- Existing team with new leader, task, or challenge
- Team in crisis
- Team checkin / take to the next level

Includes:

- Practitioner Guide
- Sample Team Dashboard report
- Investigation Questions worksheet - How to analyze the Whole Brain® Team Dashboard
- ThinkAbout Team Effectiveness Whole Brain® Walkaround
- ThinkAbout Team Action Worksheet

Herrmann® Team Effectiveness Dashboard:
